

M'ADOO AND COX APPEAR CERTAIN

Poll Taken by International News Service Announced.

HOOVER PLACED FIRST

Food Administrator However Is Now Eliminated by Democrats as Choice.

By WILLIAM PHILIP SIMMS.
(International News Service Correspondent.)
WASHINGTON, March 31.—A digest of the democratic returns in the country-wide poll of daily newspaper editors taken by the International News Service indicates the trend to be:
For president, William Gibbs McAdoo of New York.
For vice president, Gov. James M. Cox of Ohio.
Platform: Business administration with liberal leanings, including generous interpretation of the 18th amendment.
This outline is based upon facts and figures disclosed by the straw poll, in which not one, but every state in the union had fair representation.
The complete returns showed Herbert Hoover first; McAdoo, second;

Governor Cox, third; Attorney General Palmer, fourth; Governor Edwards of New Jersey, fifth, and William Jennings Bryan sixth in the first choice balloting.
Hoover, however, has rendered himself ineligible. Thus eliminated for consideration by the democrats, the party choice logically falls upon the next best in the race.
McAdoo, however, did not come in the voting unless the totals of first, second and third choice votes are taken as indicating democracy's selection rather than the first choice votes alone.
These totals put McAdoo first with 224 votes; Hoover second with 192; Palmer third with 152; Bryan fourth with 95; Cox fifth with 78, and Edwards sixth with 51 votes.
The signs seem equally to favor Governor Cox for vice president.
First, in the first choice column he came next to McAdoo, running strong in almost every section.
Second, democrats believe he can carry Ohio against the strongest republican opposition party can put up against him. This opinion is based upon the governor's past performances in that state, being elected three times in a section normally republican.
Third, it is believed he would carry Kentucky, one of the doubtful states and one which, it is believed, would go republican if Cox were not on the national ticket.
Settle Peruvian Question.
BUENOS AIRES, March 31.—Ricardo Mujica, the Bolivian minister here, issued a statement today declaring that Peru had given ample satisfaction to Bolivia and had presented her regrets for the recent attacks on the Bolivian legation at Lima and the consulate at Molesio.

FRENCH REFUSE HUNS

Millerand Declines to Allow Sending of Troops to Ruhr District—Reids Ready to Quit.

PARIS, March 31.—The request of the German government that it be permitted to send troops to the Ruhr district, in the neutral zone near the German border, has been denied by the government of France.
Conversations over the German request have been in progress between Premier Millerand and Dr. von Mayer, the German charge d'affaires in Paris. M. Millerand yesterday indicated he would give the German charge an early reply and it was handed to Dr. von Mayer today.

DUSSELDORF, March 30.—The revolutionary leaders in the Ruhr district have been in secret session, virtually uninterrupted, for 36 hours, and at 6 o'clock tonight were still trying to find some way out of the corner into which most of them feel they have been driven by the government's measures.
Most of the leaders admit defeat, but many of them are declared to be resolved to pursue a course of sabotage with regard to the mines, and possibly one of destruction of the factories, if the reichswehr really advance upon them as was threatened in the government's ultimatum.
There has been a sudden tightening of the food restrictions in the Ruhr area, which had been relaxed for a time by the workmen's governing bodies. Some of the hotels are refusing to accept guests, even

FIRST BODY IS EXHUMED

Hundred Bodies to Be Ready for Shipment From France By April 5

By The Associated Press.
BREIST, March 31.—The first body of an American soldier who died in France was exhumed from French soil yesterday at the Pontanzen camp cemetery. The graves officials will have 100 bodies ready for shipment to America by April 5, the date on which a transport has been requested from the navy department.
It is expected the transport Antigon, which sailed from Danzig yesterday bearing homeward bound, healthy Polish-American veterans of the army of General Haller, will call at Breist to take the bodies aboard.

SHOE COMPANY ENJOINED

Decision in St. Louis Prevents Carrying Out of Monopoly.

ST. LOUIS, March 31.—The United Shoe Machinery company of Massachusetts was enjoined by Judge Triebel in the United States district court here today from enforcing any of the lease clauses in contracts made before the passage of the Clayton antitrust act in 1914.
The suit brought by the government, charged that the company controlled 85 per cent of the shoe machinery business of the country and that under these lease clauses, known as restricted and unrestricted leases, manufacturers were required to pay prohibitive royalties on shoes made on machines rented from the company.
Under restricted leases manufacturers were required to use the

company's machines exclusively while unrestricted leases required a large initial payment before installation of the machines. The decision said the cost of an unrestricted lease, which do not require the exclusive use of the company's machines, was 54 per cent greater than that of a restricted one.

What would you do if your husband left you on a ranch with three babies?

ONE day a happy wife and loving mother—the next, deserted and miserable. What made Chaddie McKail's husband suddenly leave her? And what was the secret in his past life that only his pretty cousin knew? Can you imagine what you would do if your husband left you? Would you consider yourself still bound to him?

And if another man fell in love with you, how would you deal with him? Would you dare to do what Chaddie did?

And how would you treat the other woman?

Don't miss a line of Arthur Stringer's story, an intimate revelation of the workings of a woman's soul—

Have women any real creative genius?

Or have men a monopoly? How does the feminine mind differ from that of man? And were Rosa Bonheur, George Eliot and Mme. Curie abnormal? Is the bearing of children the only "creative" ability woman possesses?

Dr. Kristine Mann, one of America's most distinguished women physicians, answers these questions in a surprising manner in Pictorial Review for April. Dr. Mann was appointed to supervise the health and moral welfare of the Government's thousands of women war workers and certainly knows what she's talking about.

What is a home-made president?

Seventeen million women will vote for President at the next election. Think of the enormous political power they will wield.

How are women going to use this new power? Will they take full advantage of it or not? Indications point to their complete rejection of a machine-made President. Ida Clyde Clark explains exactly why the women of America demand a home-made President.
